<ul style="list-style-type: none"> - Liquids, aerosols and gels < 100 ml placed in a transparent resealable bag of capacity not exceeding 1 litre. - Items required for medical or dietary purposes and baby food products for use during the trip 		✓	✓

Lithium batteries powered devices

Watt hour rating calculation of one battery: $wh = v \times Ah$

		Batteries contained in device		Spare and power bank batteries (External to a device) ³	
		In cabin	In checked baggage	In cabin	In checked baggage
Self balancing devices with or without batteries, electric bikes with batteries		X	X	X	X
> 160 WH Major tool, drones, batteries		X	X	X	X
≤ 160 Wh ^{1,4} Tools, drones, digital cameras, tablets, laptops		✓	✓	✓	X
E-cigarettes, personal vaporizers, related items		✓	X	✓	X

¹ Portable electronic devices in checked-in baggage must be turned off! Portable electronic devices should not be packed near aerosols or perfumes or other permitted flammable products.

² Transportation may be authorized as checked baggage subject to prior approval from Condor/Thomas Cook Airlines

³ Spare and power bank must be individually protected to prevent short circuits

⁴ If watt-hour rating > 100 wh and < 160 Wh: Maximum of 2 spare batteries and power bank per passenger. Mandatory prior approval from Condor/Thomas Cook Airlines for the device and/or batteries
